

## April 2013 - Top 200 Cows ranked by Traditional JPI

The top 200 cows for traditionally calculated Jersey Performance Index™ (JPI) are listed in rank order. Ties are broken by PTA protein. The range in JPIs for this evaluation run is from 171 to 241.

To qualify, cows must (1) have registry status of HR (no prefix), GR or PR; (2) must

have calved within the past 27 months; and (3) not have a termination code associated with the current lactation. Cows that do not have linear type information are identified by a 0 (zero) in the number of type records (REC) column. They are included in the JPI ranking by using a Parent Average estimate for Functional Trait Index (FTI), but only if the cow was less than four years of age on Apr 1, 2013.
