

Generation Count 3 - 6: Top Cows Ranked by Traditional JPI™ April 2016

This list ranks the top cows recorded at Generation Counts 3 through 6 for traditionally calculated Jersey Performance Index™ (JPI). Cows must have calved within the past 27 months and not have a termination code associated with the current lactation. Cows that do not have linear type information are identified by a 0 (zero) in the number of type records (REC) column. They are included in the JPI ranking by using a Parent Average estimate for Functional Trait Index (FTI), but only if the cow was less than four years of age on April 1, 2016.
