

Herd Register: Top 500 Females Ranked by Genomic JPI™ November 2015

The top 500 females (cows and heifers) recorded in the AJCA Herd Register are listed in rank order for genomic Jersey Performance Index™ (GJPI). Ties are broken by PTA protein. Cows must have calved within the past 27 months and not have a termination code associated with the current lactation. Heifers must be no older than three years of age on November 3, 2015 and not have a GPTA based on lactation information. Genomic evaluations are calculated from the information source listed in the GT column: (1) own genotype indicated by chip density; (2) GI, genotype imputed from genotypes of progeny; or (3) GA, imputed from ancestors.
