

Herd Register: Top 100 Polled Females Ranked by Genomic JPITM November 2015

The top 100 polled females (cows and heifers) recorded in the AJCA Herd Register are listed in rank order for genomic Jersey Performance Index™ (GJPI). Ties are broken by PTA protein. Cows must have calved within the past 27 months and not have a termination code associated with the current lactation. Heifers must be no older than three years of age on November 3, 2015 and not have a GPTA based on lactation information. Genomic evaluations are calculated from the information source listed in the GT column: (1) own genotype indicated by chip density; (2) GI, genotype imputed from genotypes of progeny; or (3) GA, imputed from ancestors.
