

# Herd Register or Generation Count 4-6 and BBR 100: Top 200 Cows Ranked by Genomic JPI™ November 2017

This list ranks by GJPI, the top 200 cows with Herd Register status or that are Generation Count 4 to 6 with a BBR of 100. Cows must have their own genotype, have calved within the past 27 months and not have a termination code associated with the current lactation. Cows that do not have linear type information are identified by a 0 (zero) in the number of type records (REC) column. They are included in the JPI ranking by using a Parent Average estimate for Functional Trait Index (FTI), but only if the cow was less than four years of age on November 7, 2017. Ties are broken by PTA protein.
