

REAP Herds Ranked by Average Cow Jersey Performance Index™ (JPI)

The top 25% of herds ranked by average cow Jersey Performance Index™ are listed. Herds must be enrolled in the AJCA REAP program and have a minimum of 10 cows with JPIs. The average includes only Herd Register and Generation Count 4, 5 and 6 cows with at least 92 PJA that have calved within the past 15 months with no termination code associated with the current lactation. Herds with same JPI average are ranked by the average for PTA protein.
