

Herd Register: Top 200 Cows Ranked by Traditional JPI™ August 2021

The top 200 cows recorded in the AJCA Herd Register are listed in rank order for traditionally calculated Jersey Performance Index™ (JPI). Ties are broken by PTA protein. Cows must have calved within the past 27 months and not have a termination code associated with the current lactation. Cows that do not have linear type information are identified by a 0 (zero) in the number of type records (REC) column. They are included in the JPI ranking by using a Parent Average estimate for Functional Trait Index (FTI), but only if the cow was less than four years of age on August 1, 2021.
