

Herd Register or Generation Count 4-6 and BBR 100: Top 200 Polled Females by GJPI & JPI™ April 2024

This list ranks by GJPI and JPI, the top 200 Polled Females with Herd Register status or that are Generation Count 4 to 6 with a BBR of 100. Cows must have calved within the past 27 months and not have a termination code associated with the current lactation. Cows that do not have linear type information are identified by a 0 (zero) in the number of type records (REC) column. They are included in the JPI ranking by using the traditionally calculated JPI denoted by an (*) beside the JPI value, but only if the cow was less than four years of age on April 1, 2024. All traditional calculated JPI values are denoted by an (*) beside the JPI value. Ties are broken by PTA protein.
